

KHAN AMIN RAJID

Full Stack Developer (Fresher)

Phone: +91 90290 08273 | Email: amink12631@gmail.com | Location: Mumbai, Maharashtra

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with a strong foundation in web development and database management. Hands-on experience in building responsive websites and full-stack applications through academic and personal projects. Quick learner with strong problem-solving skills and a passion for clean, efficient, and scalable code.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript

Backend: Node.js, Python

Databases: MySQL, MongoDB

Web Development: Responsive Design, REST APIs

Tools: Git, GitHub, VS Code

PROJECTS

DocFlow Supervision System (Hospital Management Website)

- Developed a hospital management system to manage patients, doctors, appointments, and prescriptions.
- Implemented role-based access for patients, doctors, and reception staff.
- Focused on secure data handling and user-friendly workflows.

Procurement Order System (Website Project)

- Built a purchase order management website to handle vendors, product orders, and procurement processes.
- Designed responsive UI and integrated backend logic with database support.
- Improved efficiency of order tracking and management.

Motion Detector System (IoT Project)

- Developed an IoT-based motion detection system using Arduino, PIR sensor, and SIM800L.
- Implemented real-time SMS and call alerts on motion detection.
- Integrated hardware and software for real-world security use cases.
